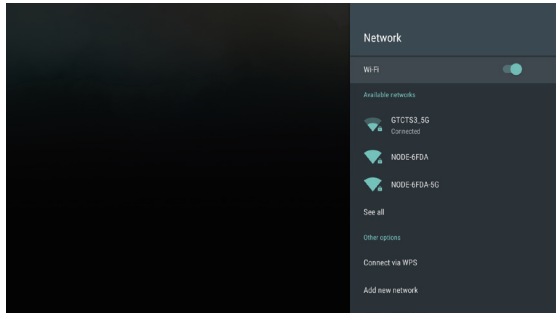
Select the Settings icon at the bottom of the screen then press OK button to enter settings interface.

2.1 Network - Wi-Fi

2.1.1 Once you select the Network option, the device will automatically scan for available WiFi networks if the WiFi option is turned on.

2.1.2 Connect to an available WiFi network. If you are connecting to a secure network, you will need to enter your WiFi password.

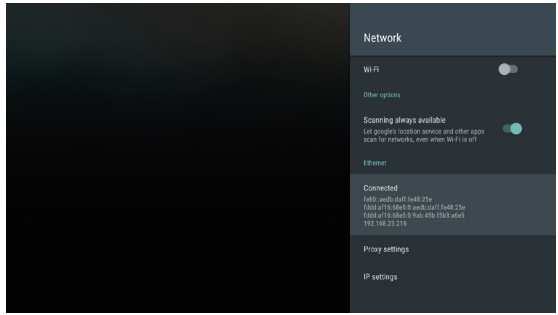
2.1.3 Once connected to your network, the device will automatically connect to this network each time it starts up.

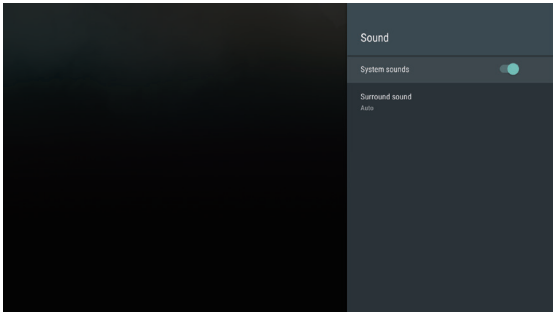


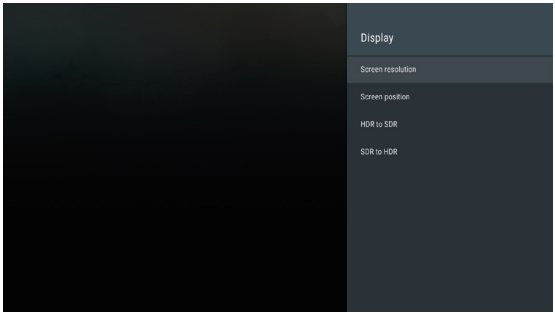
Note: If factory reset, the password of Wi-Fi network have to be reset.

2.2 Network - Ethernet

Connect your ATV495Max to your router Via an RJ45 ethernet cable. If you have previously used a WiFi connection, you may need to disable the WiFi before connecting the ethernet cord.







2.3 Sound

2.3.1 System sounds

Turn on or off system sounds.

2.3.2 Surround sound

You can setup Surround sound to auto, on or off.

2.4 Display

2.4.1 Screen resolution

You can select different screen resolutions here. By default, the resolution is set to automatically switch to the best configuration for your TV. If you are having issues with your resolution, you can try different settings here. If you are seeing too much or not enough of your screen, this will likely be related to your scaling level's and not your resolution.

2.4.2 Screen position

This is where you change the scaling of your TV screen. Some TV's have different scaling requirements. Zooming in or out will help the device fit better on your screen.

2.4.3 HDR to SDR

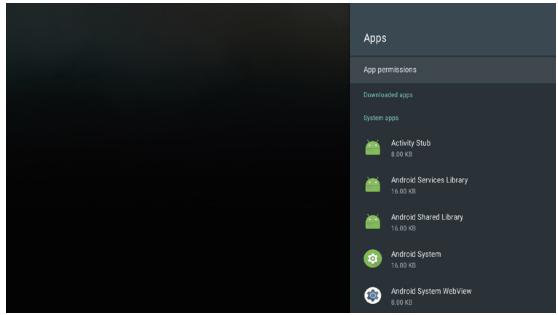
By default, this is set to "Auto". You can change this on or off.

2.4.4 SDR to HDR

By default, this is set to off.

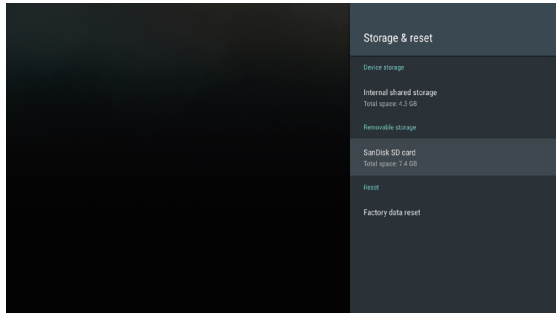
2.5 Apps

Here is a list of all the apps that are installed on the device.
You can also change App permissions here.
You can choose an application and force to shut down the app, Disable the app, uninstall the app, clear user data and clear cache data.



2.6 Storage & Rest

Here is the information showing the storage space on the internal memory and any connected devices. You can also do a factory reset here.

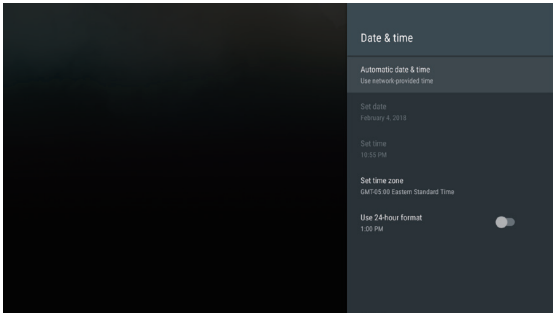


2.6.1 Factory data reset

This will erase all data from your ATV495Max's internal storage, including:

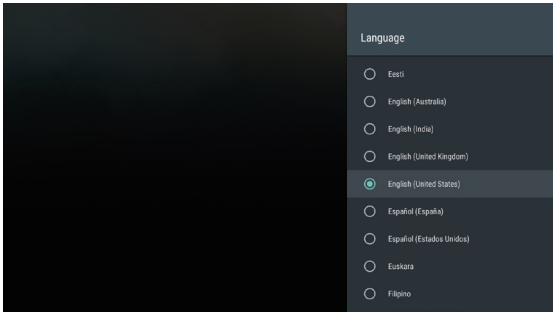
- Your Google account
- System and app data and settings
- Downloaded apps
- Music\Photos
- Other user data

You can reset all the settings and apps to factory default.
Note: Once you choose to reset to factory default, all data/apps will be deleted.



2.7 Date & Time

By default ATV495Max will automatically get date and time from the internet.
You can also manually setup the date and time, as well as the time zone
You can also select to use 24-hour format time display or not.



2.8 Language

You can change the system language here.
