## 1. Safety Information

Read and understand all instructions before using this product. If damage is caused by failure to follow the instructions, the warranty does not apply.

### 1.1 Warning

To reduce the risk of electric shock, DO NOT remove the cover (or back).

DO NOT attempt to repair the product, this could lead to the risk of injury, damage to the product .

To reduce the risk of fire or electric shock, keep this product away from exposed direct sunlight, naked flames or heat, large amounts of moisture, dust, and sand.

FCC Note (for U.S.A)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on.

The user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.
- This class B digital product meets all requirements of the Canadian Interference - Causing Equipment Regulations.

### 1.2 Precautions

Important Safety Instructions

Read these operating instructions carefully before using the unit. Follow all the safety instructions listed below.

Keep these operating instructions handy for future reference.

1.2.1 Read these instructions.

1.2.2 Keep these instructions.

1.2.3 Heed all warnings.

1.2.4 Follow all instructions.

1.2.5 DO NOT use this apparatus near water.

1.2.6 DO NOT clean with any chemical detergent. Clean only with a dry cloth.

1.2.7 DO NOT block any ventilation openings. Install in accordance with the manufacturer's instructions.

1.2.8 DO NOT install near any heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat.

1.2.9 Protect the power cord from being walked on or pinched particularly at plugs,

---

convenience receptacles, and the point where it exits the apparatus.

1.2.10 Only use attachments/accessories specified by the manufacturer.

1.2.11 Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

1.2.12 Unplug this apparatus during lightning storms or when unused for long period of time.

1.2.13 Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as when the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

### **1.3 Handling Cautions**

1.3.1 DO NOT expose this apparatus to dripping or splashing. Do not put objects filled with liquids, such as vases on the apparatus.

1.3.2 To turn this apparatus off completely, you must pull the power plug out of the wall socket. Consequently, the power plug must be easily and readily accessible at all times.

1.3.3 DO NOT plug multiple electric devices into the same wall socket. Overloading a socket can cause it to overheat, resulting in a fire.

1.3.4 Before connecting other components to this player, be sure to turn them off.

1.3.5 If the product makes an abnormal noise or produces a burning smell or smoke, turn off the power switch immediately and disconnect the power plug from the wall outlet. Then, contact the nearest customer service center for technical assistance. Do not use the product. Using the product as it is may cause a fire or an electric shock.

## 2. Introduction

### 2.1 Package Contents

Enjoy TV Quad Core Box - ATV1950A(Dual Tuner)

User's Guide

HDMI Cable

IR Remote Controller (IR RC)

Optional Remote Controller

2.4G wireless Remote Controller

USB wire/wireless Mouse & Keyboard

Power Adapter, Input: AC100 ~ 240V, 50/60Hz, Output: 5V, 2A

### 2.2 Product Features

- Quad Core CPU,Penta GPU, frequency is 2.0GHz, RAM is 2GB, built in 16GB EMMC. Powered by Android 5.1 OS
- With dual Digital TV Tuner built-in ATSC,one for live watching, another for recording
- Built in browser and support virtual private network access
- RJ45 10/100/1000M Ethernet interface
- Support 4k2k video local media playback from SD card or USB HDD
- Built in 802.11b/g/n AC WIFI module with antenna inside, WiFi frequency range is 2.4G/5.8G,support BT
- Rj45:Wired internet connection
- HDMI video output, connect to HDTV for HD video playback
- 2 external USB interface , support 2.5 inches internal HDD, support SPDIF,support mouse and keyboard operating
- Support weather, calendar, and desktop clock gadgets
- Support USB mouse and keyboard operation
- Support simple IR remote control with mouse function
- Support music player, picture player and more family entertainment
- Support Micro SD card
- Support Google Chrome browser
- App Installer for application installation from USB/SD card

## 2.3 Panel Introduction

## 2.4 Remote Controller

Note: Button Battery 2025 3V insert with correct polarity (+/-).

---

## 2.5 Setup Connection

Place ATV1950A on a flat platform near the TV, and make sure nothing block the remote control signal.

## 2.6 Display when Power Up

## 4.DTV Player

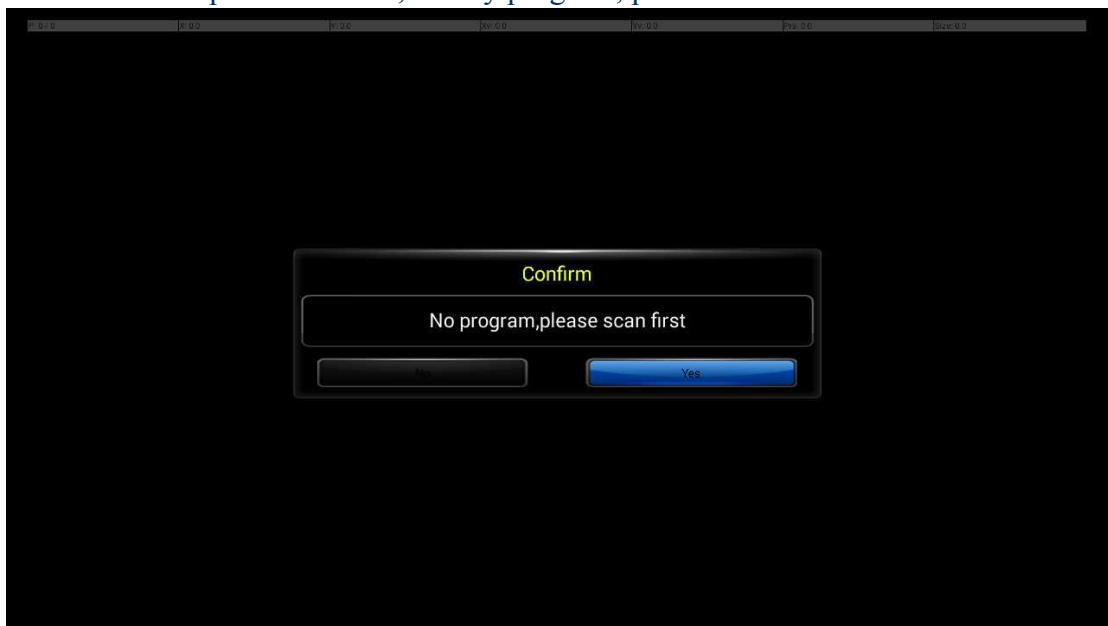

### 4.1 Click DTV Player icon in the all apps of TV

### 4.2 Scan Channel

Please make sure plug in RF antenna well beforehand .

When run the Apk at first time, no any program, please scan channel first

Search Menu (click the search)

Please setup Area at first , select your country( for example in USA, please choose the area USA/CANADA ATSC Air )

There are two kinds of scan methods, you can choose either of them:

### 4.3 To choose Auto Scan TV Channels

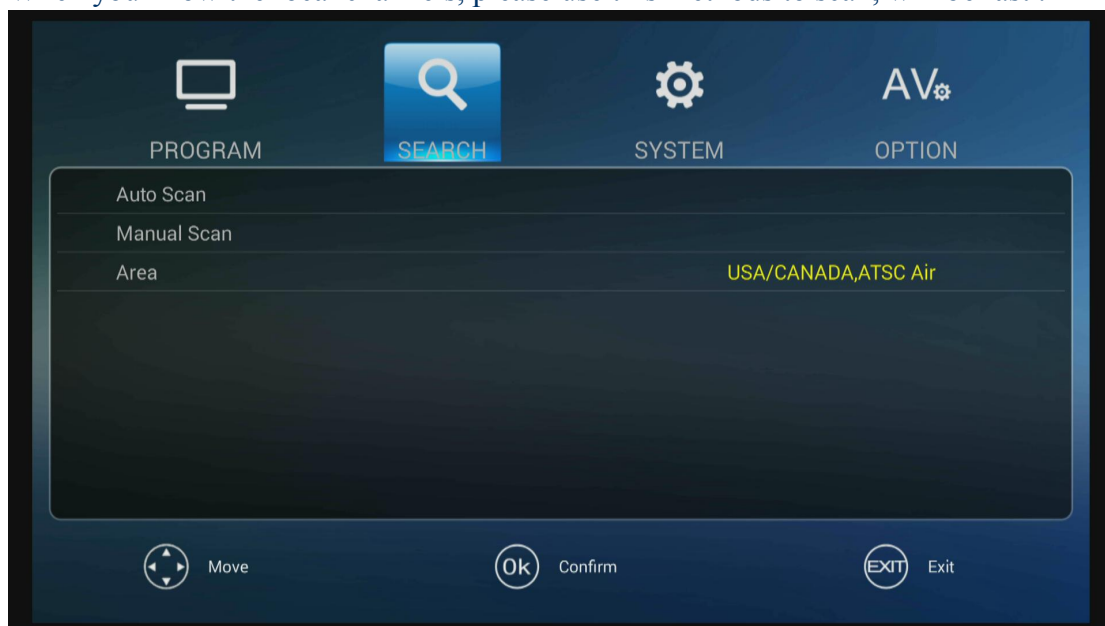

After setup the correct area, you can select Auto Scan to start scanning for channels. It is blind scan, please be patient, which may takes few minutes, since it will scan the whole frequency range . After scan, the found channels will be saved .

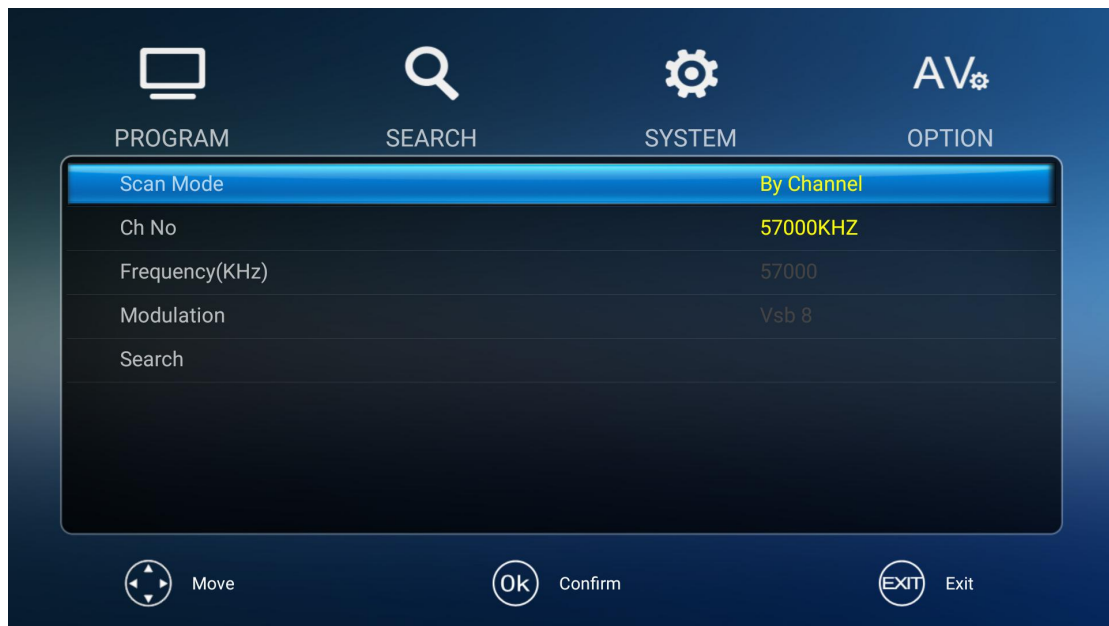

### 4.4 Choose Manual Scan Channels.

There are 2 mode in manual scan: By channel or by frequency.

When you know the local channels, please use this methods to scan, will be fast .

Click scan mode

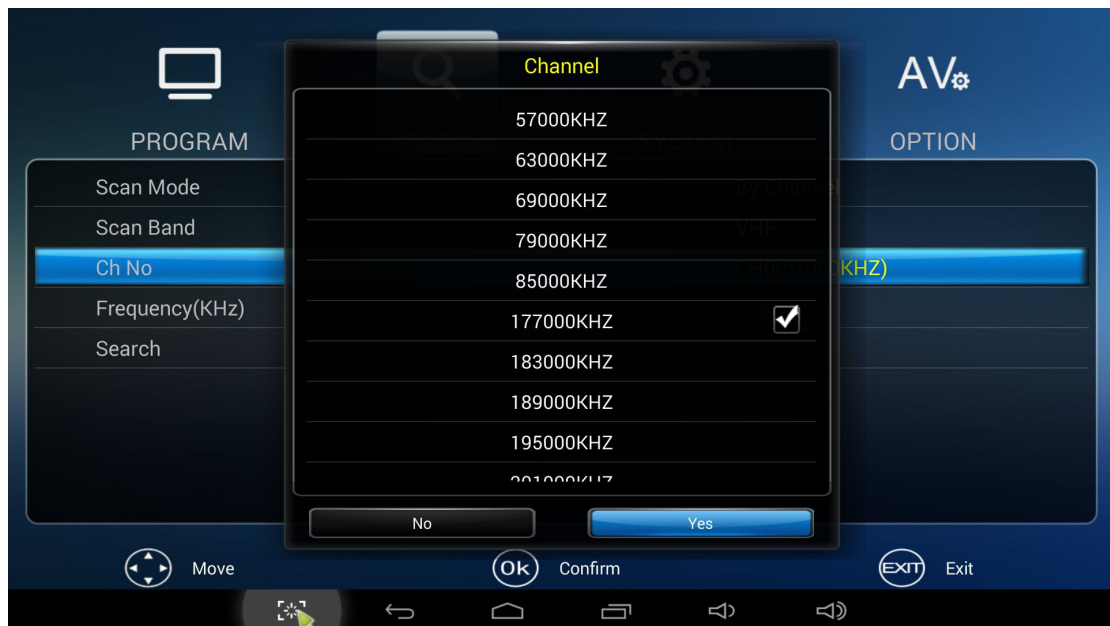

Choose to change scan by channel

Click Yes.

Click Ch No, choose the channel 177000KHZ (Please setup it according to your local channel frequency )

Click search after setup well the above

There is process bar to show the schedule.

After scan well, press OK to show the program.

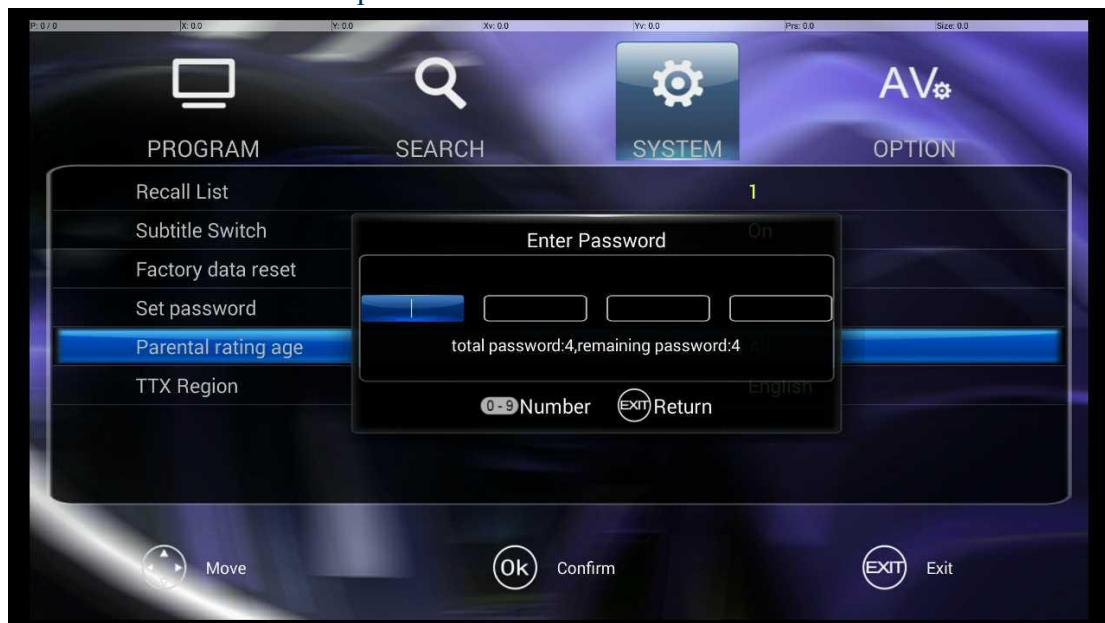

Attention:

If u scanned the channels before, but did not get full list. Please do Factory data reset before to scan any new program once again

Please click: System Settings ---- Factory Data reset ---- input the passwords : 0000 ---- then u can clear all the channels .

Parents Lock: Can set new passwords

## 4.5 DTV function

You can press Left or Right button to bring up the channel sub menu, from the menu

you can change the display size by clicking  , access EPG by clicking  ,

change audio language by clicking  , change subtitle by clicking  , change

---

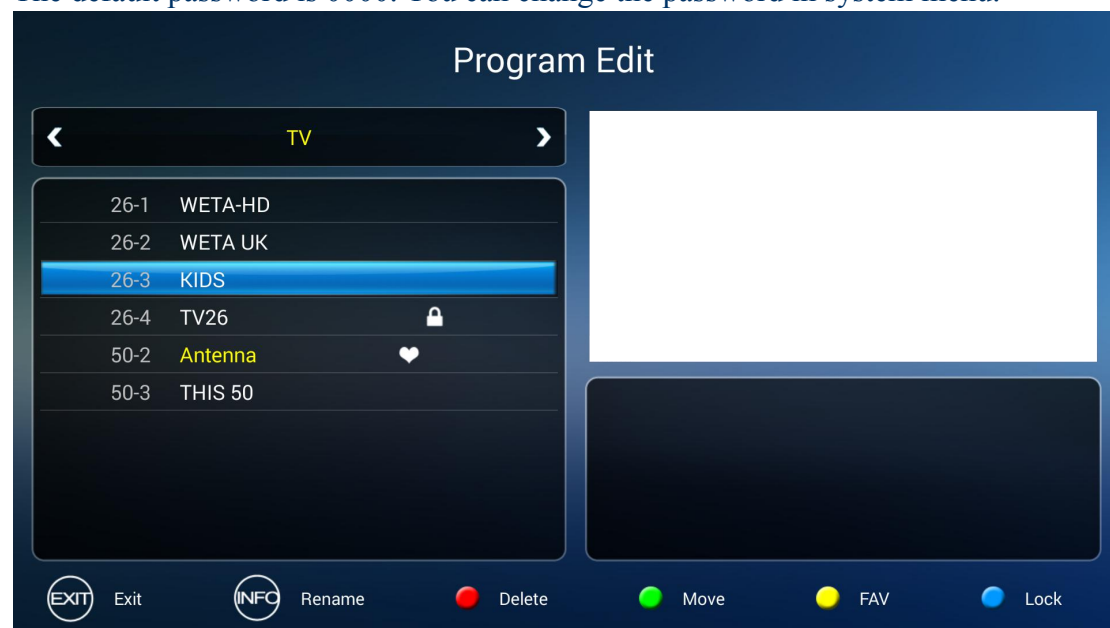

TTX region by clicking  and start recording by clicking  .

## 4.6 DTV Player settings

### 4.7 Program Edit

In program edit option, you can re-order the channel list, select Favorite channels (channel will mark with a heart icon) and lock channels (channel will mark with a lock icon).

The default password is 0000. You can change the password in system menu.

### 4.8 EPG

In EPG option, you can check TV shows schedule for the coming 7 days, and also can setup schedule recording.

To setup schedule recording just select a time range and click OK button, a list of record option will appear and just select the one you desire.

By default the recorded files will be store in the external storage device. You can change this in PVR Configure.

## 4.9 PVR

In PVR Configure, you can select which device to store the recorded files.

You can also change the Time shift size to select how long the time shift should be.

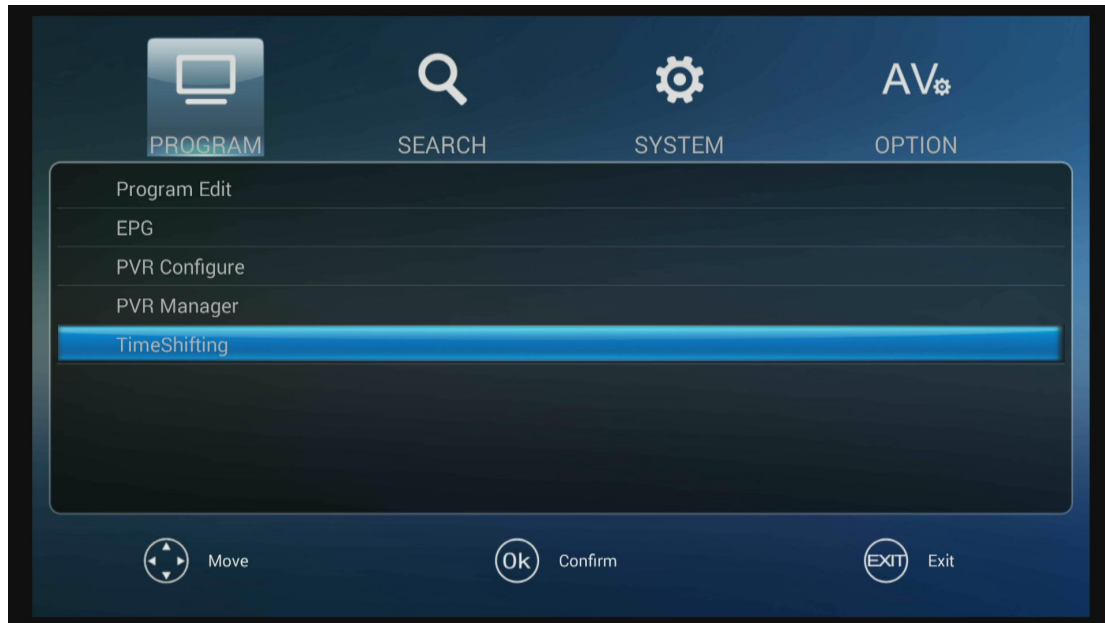

In PVR Manager, all recorded files will be list here, you can playback the file, delete the file or format the storage device.

Please take note, all data will be lost if you select to format the storage device.

## 4.10 Timeshift

Select Timeshift will start timeshifting TV channel, you can pause, play, rewind, fast forward the recorded timeshift. The length of timeshift can be setup in PVR Configure.

## 4.11 System

Under System menu, there are:

Recall List: Select which recall list to be use

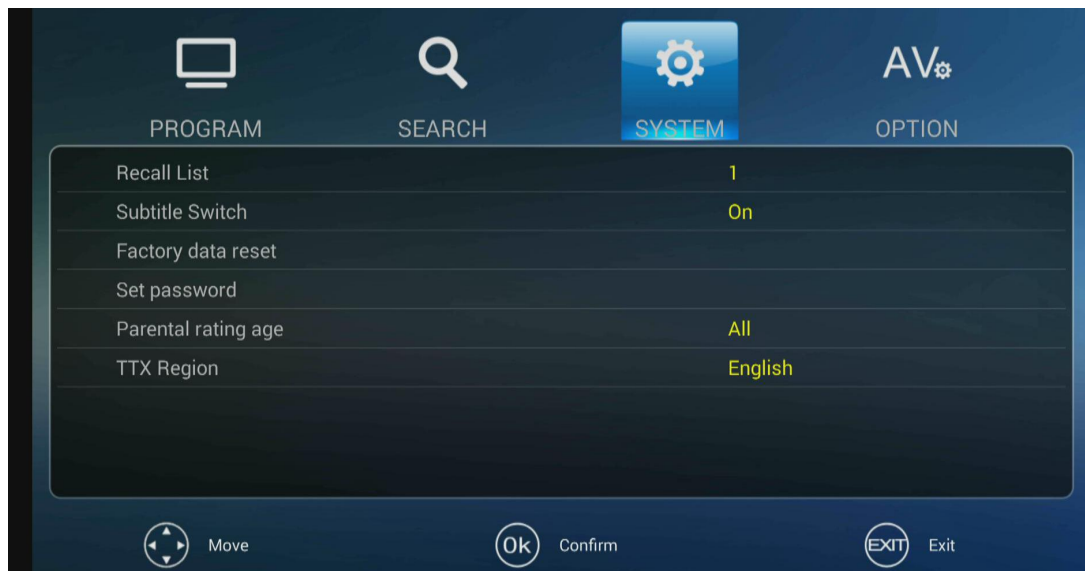

Subtitle Switch: Enable or disable subtitle switch function

Factory data reset: Reset all settings to factory default

Set password: Change the password for program edit and parental rating age, they use the same password.

Parental rating age: can set Parent control by age 4~18 or all(no parent control)

TTX Region: Set the TTX language

## 4.12 Option

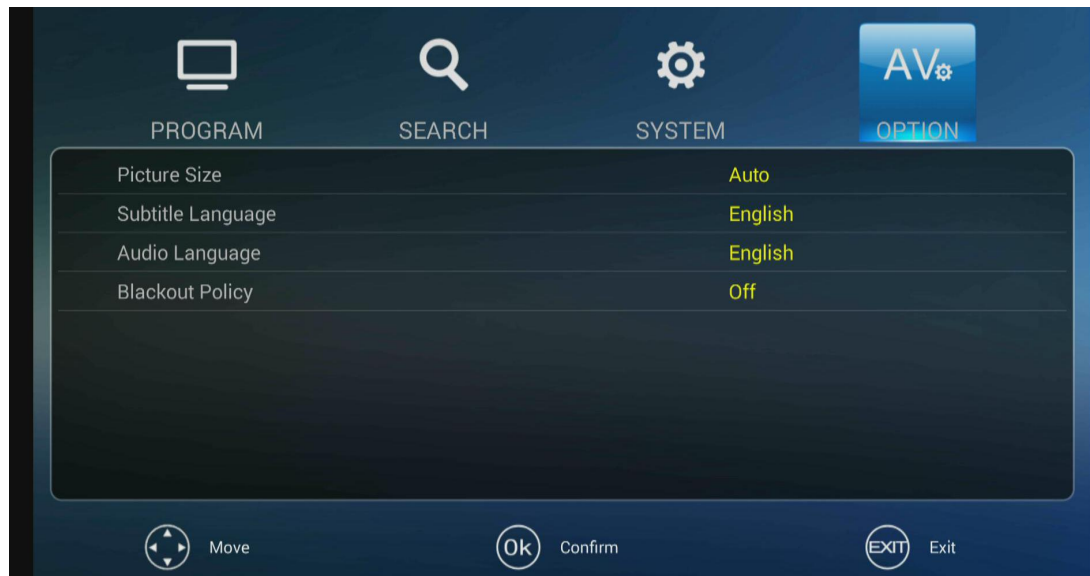

Under Option menu, there are:

Picture Size: Set the default display size

Subtitle Language: Set the Subtitle Language

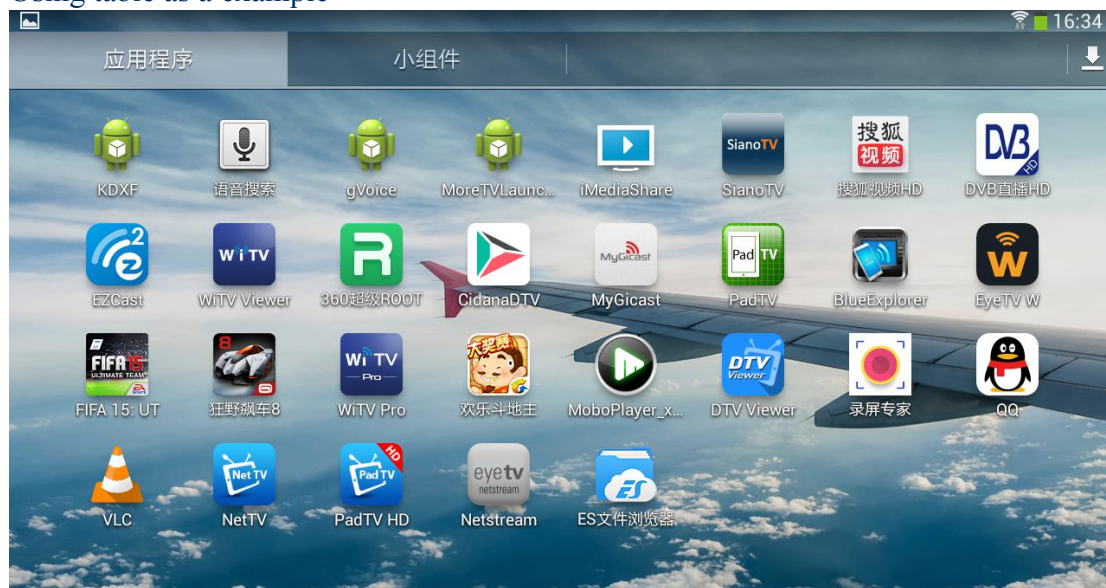

Audio Language: Set the Audio Language  
 Blackout Policy: Turns on/off Blackout Policy

#### 4.13 Click DTV Viewer in the all apps of tablet or mobile phone

Using table as an example

Click

ATV1950A support TV and mobile phone or tablet broadcast and record at the same time (TV and mobile phone or tablet must connect the same WIFI under the same local area network)

TV and mobile phone or tablet only need to download the DTV Viewer apk , once TV set the frequency point , mobile phone or tablet can realize broadcast the same TV program with TV.

You can watch the same TV program on TV and tablet.

The tablet also can record the program.

The mobile phone is the same with the tablet(the mobile phone also can broadcast and record the same TV program with TV if the mobile phone and TV connect the same WIFI network)

---

## **5. Apps Install & Uninstall**

On ATV1950A, you can install apps from Android Market over the Internet or other sources, such as other online sources, the internal storage and the USB storage device and SD card that you have mounted onto ATV1950A.

You also can manage apps on ATV1950A and SD card, install/uninstall apps, stop running apps, or select other options.

---

## 6. Firmware Update

You can download newest firmware from Geniatech Official website:  
[www.geniatech.com](http://www.geniatech.com)

---

## **7. Trouble Shooting/FAQ**

### **7.1 No Picture**

Refer to the TV user manual for how to select the correct video input channel.

### **7.2 USB Content cannot be read**

- . The format of USB storage device is not supported
- . The supported memory size is 32G maximum.
- . Make sure that this player supports these files.

### **7.3 Remote Controller cannot respond quickly to the pressing of keys**

Make sure that batteries have enough power.

### **7.4 The firmware updating is not complete after a long time**

If you update the firmware over the online service, it may take a long time to download the firmware update files from the server. To save your time, update the firmware through the SD card.

---

## 8. Repairs

If you contact us to repair your player, an administration fee may be charged if either:

An engineer is called out to your home at your request and there is no defect in the product.

You bring the unit to a repair center and there is no defect in the product.

We will provide you with the amount of the administration fee before we make a home visit or begin any work on your player.

We recommend you read this manual thoroughly, search for a solution on line at [www.geniatech.com](http://www.geniatech.com), or contact Geniatech Customer Care before seeking to repair your player.
