

## FUUGO TV for OSX Quick Guide

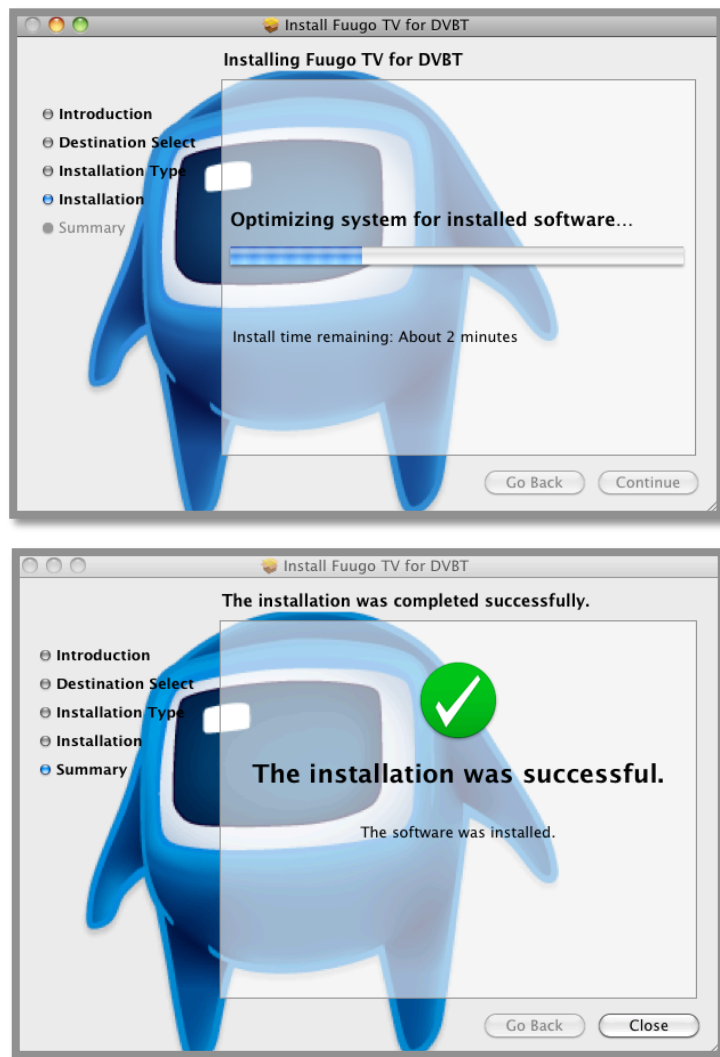

Copyright © Axel Technologies Oy 2010

**FUUGO**  
ALWAYS SOMETHING GOOD TO WATCH

## 1. Installing Fuugo TV

Before you can use Fuugo, you must install the application. Fuugo can be installed by double-clicking Fuugo installer package and following on-screen instructions given in the installer.

After installation, plug in the Fuugo receiver in to your MAC's USB-port to be able to start watching Fuugo TV.

## 2. Initial Use

After Fuugo is installed and launched for the first time, user is asked to select the country where Fuugo is used. Country Selection is illustrated with flag symbols. Next user is asked to accept EULA, and enter a valid product key. Product key can be entered also later, however within 90 day trial period.

## 3. Channel Search

Behind the intro sequence, channels are searched automatically according to selected country. After channel search is finished, Fuugo starts playing the first found channel. If you face problems in channel search, please find more information on channel search in Chapter 9.

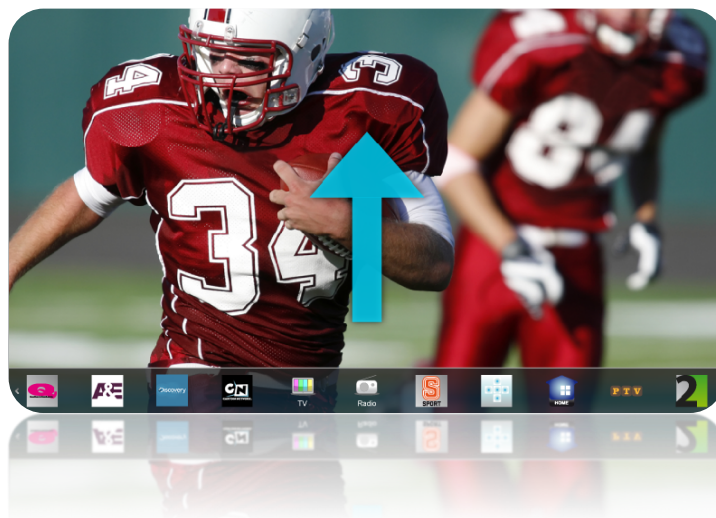

## 4. Switching channels

Channels can be switched by swiping left-to-right for next channel, or right –to-left for previous channel. Swiping can be done in several ways:

- Two-finger swipe on the MacBook Trackpad
- Mouse click & swipe left/right on a normal mouse
- PgUp/PgDown press from keyboard

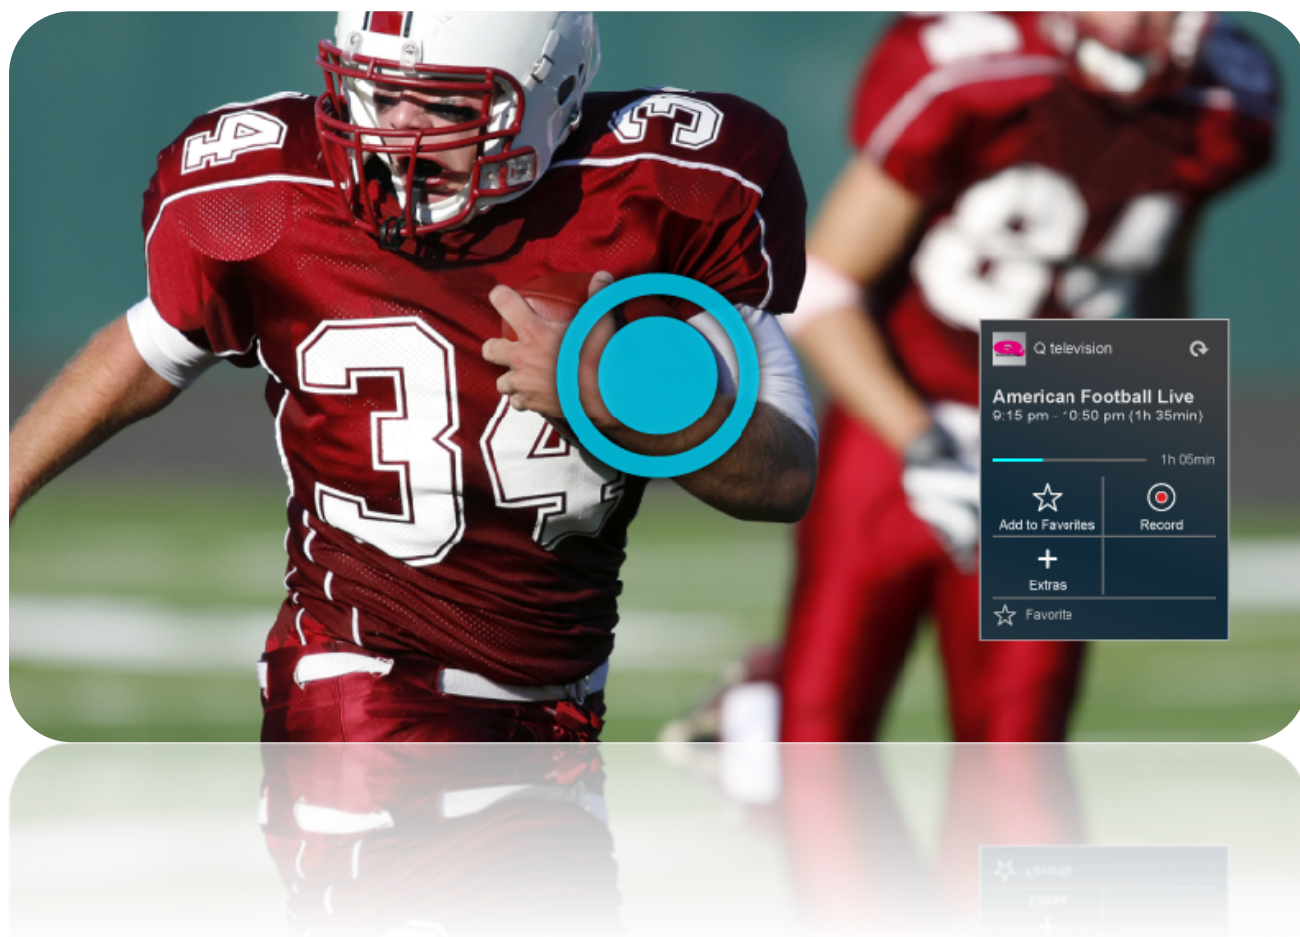

You may switch to a specific channel also via channel bar. Swipe upwards and select the logo of the desired channel from the channel bar. Also the number keys in the keyboard can be used in switching directly to a certain channel.

## 5. Program Specific Features

While watching a program, you may right click (or in MacBook double-finger click) anywhere on the screen to access a program related Menu Card.

The menu card has two sides; program related actions, and program description. You may change between the sides anytime by tapping at the top of the Menu card.

In Menu card, the following actions can be performed:

- Adding the program to **Favorite** program
- Enter **Extras** view for reading extra information of the program
- **Record / Stop** recording the program

## 6. Program Guide

You may access Program Guide by swiping downwards and selecting “Program Guide” from the view bar.

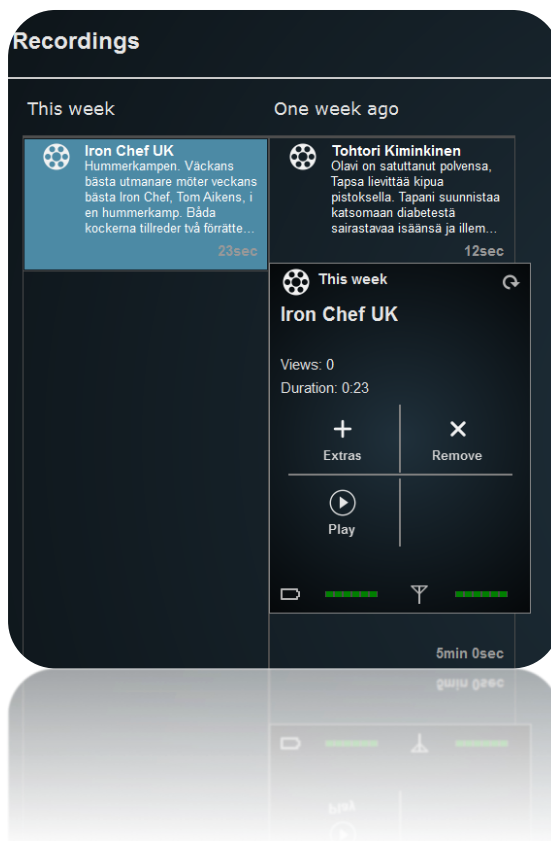

In Program Guide, Menu card can be accessed by right clicking (or in MacBook double-finger clicking) the screen over the program. In Menu card, the following actions can be performed:

- Adding the program to **Favorite** program
- Enter **Extras** view for reading extra information of the program
- **Record / Stop** recording the program

From Program Guide, also the recordings can be accessed by selecting “Recordings” from the top menu. In Recordings view, Menu card can be invoked by tapping over the desired recording. The following actions can be performed:

- Enter **Extras** view for reading extra information of the recorded program
- **Play** the selected recording
- **Remove** the selected recording

In the Recordings view you can access Scheduling view, where the scheduled programs are listed.

| Schedulings   |  |   |  |  | Recordings | List view | Back | 2:14 pm |

When a recording is played, list of the recordings can be invoked by swiping upwards; from the list, you may select a recording you wish to play. When you swipe up again, control panel is invoked; you can pause and resume video, and jump inside the video.

## 7. Adjusting Volume

Audio volume can be controlled by using +/- keys in keyboard.

## 8. Window mode

Window mode button (or keyboard key “F”) changes window size smaller. Button is located in the view bar. In the small window, channels can be changed normally by swiping left/right, or PgUp/PgDown. Also volume can be controlled normally with +/- buttons. To return to Full Screen view, double click the video or press “F” key.

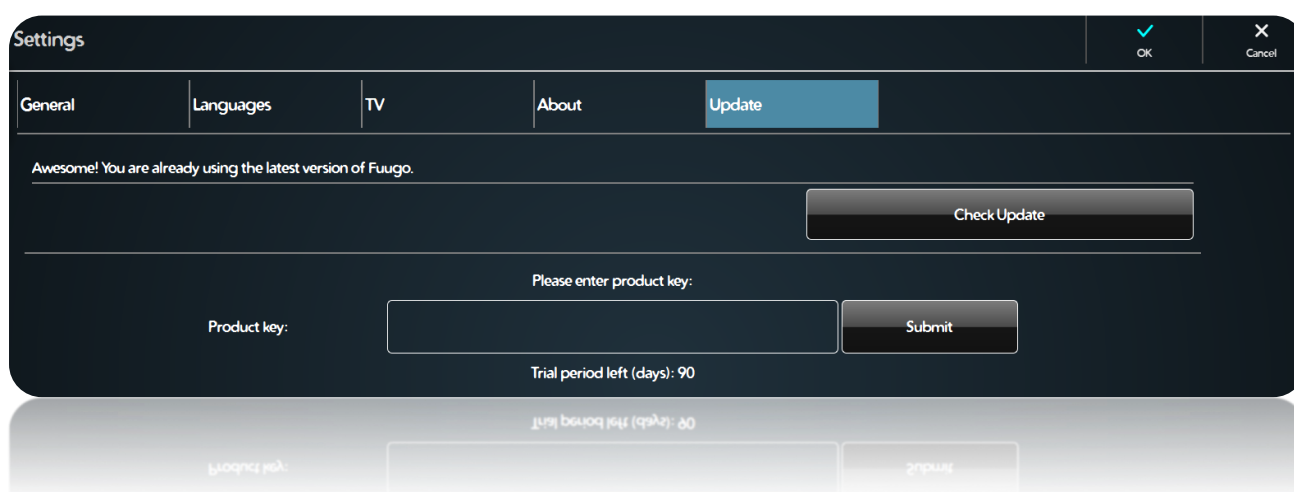

## 9. Settings

From the Settings menu the user can adjust and alter several properties affecting the behavior and appearance of the application. Settings menu can be accessed through View bar.

### *Updating Fuugo*

Fuugo can be easily updated to the latest version via the Internet. First check if there is a newer version available by clicking on “Check Update”. If Fuugo finds a newer version, it can be downloaded by clicking on “Download Update”. It may take some time to download the update. After the installer package has been downloaded, it can be installed by clicking on “Install Update”. When the latest version of Fuugo has been installed, follow the on-screen instructions.

### *Channel Search*

In Settings menu channel search can be started. You can choose the country where you are located from the country specific channel search. Fuugo will find you the channels from your area.

If channels are not found, please make sure that the receiver antenna is properly attached to the Fuugo USB receiver. You may also need to change the location in order to improve the signal quality. In case of traveling, you may want to search for the local channels with the country specific channel search. You may also want to update your channels in case of new channels are available in your area.

### *Parental Control*

Fuugo offers you a possibility to activate the Parental Control from the Settings menu. You can set the age limit for TV programs, in scale from one to eighteen years. In order to activate the Parental Control password is needed, the default password is 1234 and it can be changed. After Parental control is activated, a lock symbol is shown in Program Guide for restricted TV programs.

When Parental Control is set, Fuugo will automatically filter all TV programs that are over the set age limit. Note, that in some countries Parental Control information is not available in the national TV broadcasting.
